Contents

**Introduction**
- How to Use This Book 4
- Revision and Exam Tips 5

**Section A Mechanics**
- Unit 1 Mechanics 6
- Unit 2 Vectors 12
- Unit 3 Forces 15
- Unit 4 Dynamics: Motion in a Straight Line 22
- Unit 5 Forms of Energy 25
- Unit 6 Hydrostatics 31
- Test Questions for Section A 34

**Section B Thermal Physics and Kinetic Theory**
- Unit 1 Nature of Heat, Macroscopic Properties and Phenomena 35
- Unit 2 Thermal Measurements 44
- Unit 3 Transfer of Thermal Energy 49
- Test Questions for Section B 53

**Section C Waves and Optics**
- Unit 1 Wave Motion and Sound 54
- Unit 2 Electromagnetic Waves 59
- Unit 3 Light Waves 62
- Unit 4 Lenses 69
- Test Questions for Section C 73

**Section D Electricity and Magnetism**
- Unit 1 Electrostatics 74
- Unit 2 Current Electricity 80
- Unit 3 Electronics 91
- Unit 4 Magnetism 95
- Unit 5 Electromagnetism 99
- Test Questions for Section D 107

**Section E The Physics of the Atom**
- Unit 1 Models and Structure of the Atom 108
- Unit 2 Radioactivity 112
- Test Questions for Section E 120

**Paper 1 Practice Questions** 121

**Paper 2 Practice Questions** 122

**Answers to Test Yourself Questions** 123

**Glossary** 126
Introduction

Written by experienced teachers and authors, Macmillan Education’s CSEC® Revision Guides provide a clear route to exam success. Inside this book you’ll find complete, concise revision notes on all key syllabus topics, in addition to practical advice on how to approach your revision and tackle the exams themselves, helping you to prepare effectively for your examinations.

Having reviewed the key points of each topic, you can refresh your knowledge and build your confidence with in-text practice questions, before moving on to sample practice exam papers at the end of the book. Questions are written in CXC examination style so that you will become familiar with exam wording and know exactly how to achieve your best possible grades.

Answers to questions are available online at www.macmillan-caribbean.com.

How to Use This Book

Self Check
Tick the box that shows how confident you feel

Yes

Maybe

No

Each section begins with a checklist so you can rate your confidence in each topic and prioritise your revision effectively.

Each section starts with a concept map showing key topics and, crucially, how they link together. Does X cause Y? Does X run in tandem with Y? Does X allow Y to happen?

At the end of each section you will have the opportunity to fill in your own blank concept map to check your understanding. It will also provide a useful summary for last-minute self-testing.

Test Yourself with these quick fire questions to monitor your progress.

Revision Tips provide you with interesting ways to make sure you retain all of this information.

Whenever you find a keyword highlighted like this, you can find out its meaning in the glossary at the back of the book.

Remember boxes contain handy nuggets of key information. If you don’t understand these, go back to your Student’s Book and refresh the topic.
Revision and Exam Tips

The content in this revision guide has been carefully written to make sure you have all of the key information needed for CSEC success at your fingertips. It has already been broken down for you into manageable chunks, based on the official CXC syllabus and exam structure.

Here are some tips to help you get the best out of this material:

- Start preparing ahead of the exams so you can give yourself enough time to get through all your work.
- Set long-term and short-term goals to help break up the work into manageable chunks.
- Write out a revision plan to help you stay on track; make sure to include breaks as learning is much more effective when spaced out over stretches of time.
- Remove all distractions from your study area.
- Make sure you have all the resources you need – this guide, a pen and extra paper.
- Use practical memory aids where you can; make flash cards, and use tables and mind maps like the ones in this guide.
- Try explaining all of the key words to another person without looking at the glossary.
- Test yourself and ask someone to test you.
- Recognise your revision milestones using the self-check boxes provided.

In the exam:

- Spend the first 10 minutes reading through the paper carefully, and work out a rough schedule to make sure you complete all the questions.
- Read each question before trying to answer it.
- Check your work and presentation carefully.
- Make sure you understand what the questions mean, so you can apply your knowledge properly:
  - **Analyse:** study something in detail and identify characteristics of each piece of information
  - **Assess:** make a judgement based on the facts provided
  - **Calculate:** work out the value
  - **Comment:** give your opinion
  - **Compare:** give similarities
  - **Contrast:** give differences
  - **Define:** give the meaning
  - **Describe:** give the characteristics
  - **Discuss:** give the key points
  - **Estimate:** give a value based on rough working
  - **Explain:** give reasons
  - **Identify:** name/characterise
  - **Illustrate:** give examples
  - **Justify:** support your answer with evidence
